Notice to Taxpayer

The American Fisheries Act (P.L. 105-277) requires a fishery cooperative to execute a contract with each cooperative member that obligates the member to make a payment to the State for Pollock harvested in the Alaska Pollock fishery that is not landed in Alaska. The required payment is equal to the amount that would have been due under the state landing tax had the product been landed in Alaska. AS 43.77.015 requires that these payments be treated as if they are landing taxes, thereby imposing a filing and payment requirement, and otherwise provides that the shared tax provisions apply to the payments.

This pollock must be reported on Schedule 1E or 2E using the location code 9000.

AS 43.77.020 now requires quarterly estimated tax payments, due March 31, June 30, September 30 and December 31 of the tax year.

If you have any questions, please contact Fish and Excise Tax staff at 907.465.2371 or e-mail fish_excise@tax.state.ak.us.

Landing Location Codes

Fisheries Resource Landing Tax is shared with organized boroughs and incorporated cities within the State of Alaska. We have assigned separate codes for each area or incorporated city. Select maps are provided on pages 21 and 22 of this booklet to help identify the correct location code to use. Complete directories of maps are included in the Alaska Fisheries Processing Location Code Maps and Directory. This booklet is available on our Internet home page at www.tax.state.ak.us or you may request a copy by calling staff at 907.465.3775.

If fisheries resources were:

- Landed within the city limits of an incorporated city in Alaska, use the location code of that incorporated city
- Landed in an area that is not within the city limits of an incorporated city, use the location code for that area
- Landed (Pollock only) outside of Alaska, use location code 9000

Enter one location code in the assigned block for each completed line entry. If you landed the same species in more than one of the coded areas or incorporated cities, use a separate line for each location. Note that your return is incomplete if you leave out the location code.

PAYMENT OF TAX

Make checks payable to the State of Alaska. Mail return and payment to:

**2003 Alaska Fisheries Resource Landing Tax
Developing Commercial Fisheries List
Form 04-680**

Effective January 1 - December 31, 2003

Developing commercial fisheries are taxed at a lower rate than established commercial fisheries. A developing commercial fishery is one that has been so designated by the Alaska Department of Fish and Game (AS 16.05.050(11)). Below is a list of fish and shellfish species considered to be developing commercial fisheries.

CAUTION: Please make sure that any species you list on the 2003 Developing Schedules 1-2 are included in the list below. Species not listed are considered to be established commercial fisheries and must be reported on the 2003 Established Schedules 1-2.

If you claim any species on the Developing Schedules 1-2 that are not included in the list below, your return may be adjusted to reflect the higher tax for established commercial fisheries.
